Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Acknowledgment is made of the amendment filed 5/22/02. Claims pending are 7-12, 14 and 15. Claims 13 and 16 have been cancelled.

Terminal Disclaimer

1. The terminal disclaimer filed on 5/22/02 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of any patent resulting from co-pending application S.N. 09/700,102 has been reviewed and is accepted. The terminal disclaimer has been recorded.

Claim Rejections - 35 USC § 103

2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
3. Claims 7-12, 14 and 15 are rejected under 35 U.S.C. 103(a) as being unpatentable over Stäb et al. in view of Defossez et al.

Stäb et al. teach cosmetic sun gel composition containing 2.5% of Uvinul T-150 and 18.9% of isopropyl myristate. See col. 12, Example 19. Sun gel of Stäb et al. is inherently applied to the skin for protecting the skin from damaging effects of light.

The Stäb reference does not explicitly teach hexyldecyl laurate of the instant claims.

However, hexyldecyl laurate is conventionally used for the same art-recognized purpose as isopropyl myristate of Stäb et al., that is as a cosmetic oil. See Defossez et al. at col. 5, lines 10-14.

Therefore, it would have been obvious to one having ordinary skill in the art at the time the claimed invention was made to use hexyldecyl laurate of Defossez et al. in the

Art Unit: 1616

compositions of Stäb et al. for its art-recognized purpose. The selection of a known material based on its suitability for its intended use is obvious absent a clear showing of unexpected results attributable to the applicant's specific selection.

Therefore, the invention as a whole would have been *prima facie* obvious to one of ordinary skill in the art at the time the invention was made.

Response to Arguments

4. Applicant's arguments filed 5/22/02 have been fully considered but they are not persuasive.

In response to applicant's argument that the references fail to show certain features of applicant's invention, it is noted that the features upon which applicant relies (i.e., effect of avoiding crystallization) are not recited in the rejected claim(s). Although the claims are interpreted in light of the specification, limitations from the specification are not read into the claims. See *In re Van Geuns*, 988 F.2d 1181, 26 USPQ2d 1057 (Fed. Cir. 1993).

Conclusion

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to

Art Unit: 1616

37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
